EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen P. McNamara on 6/26/06.

The application has been amended as follows:

In the list of claims,

Claim 1: line 11, after "the vehicle" inserts --wherein said plurality of vibratory units is distributed on the operator's torso, head and legs--

Claims 8-9: (Cancelled).

Claim 10: line 3, replace "object" with --vehicle--, line 9, delete "object" insert --vehicle; wherein the plurality of vibratory units indicate a three-dimensional location of the identified threat relative to the vehicle; wherein said plurality of vibratory units is distributed around the operator's torso--.

Claim 11: line 3, replace "object" with --vehicle--.

Claim 12: line 3, replace "object" with --vehicle--.

Claim 13: line 3, replace "object" with --vehicle--.

Claim 16: line 2, replace "object" with --vehicle--, line 4, replace "object" with --vehicle--, line 9, delete "object" insert --vehicle; wherein the plurality of vibratory units indicate a three-

dimensional location of the identified threat relative to the vehicle; wherein said plurality of vibratory units is distributed around the operator's torso--.

Claim 17: line 3, replace "object" with --vehicle--.

Claim 18: line 3, replace "object" with --vehicle--.

Claim 21: (Cancelled).

Claim 22: line 7, replace "object" with --vehicle--, line 12, after "person" insert --wherein the plurality of vibratory units indicate a three-dimensional location of the identified threat relative to the vehicle; wherein said plurality of vibratory units is distributed around the operator's torso—

Claim 28: line 5, replace "object" with --vehicle--.

Claim 29: line 5, replace "object" with --vehicle--.

2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a threat detection system. Each independent claim identifies the uniquely distinct features "an alert to an operator of a vehicle relating to a threat identified by a threat detection system, including a plurality of vibratory units distributed around the operator's torso in tactile communication with the operator, the plurality of vibratory units generated based upon a determined direction and distance of the identified threat relative to the vehicle and the vibratory units indicate a three-dimensional location of the identified threat relative to the vehicle" in combination with the manner claimed. The closest prior arts, Chambre [US 4,967,641], Ewart [US 4, 008,456], Morag [US 4,713,651] and Hirsch [US 3,736,551] teach similarly inventions, however, they fail to show the distinct combination limitations above. Therefore, either

singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son M. Tang whose telephone number is (571)272-2962. The examiner can normally be reached on 4/9 First Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel J. Wu can be reached on (571)272-2964. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
